

# Claim Interventions – Savings by Year

At R&R Insurance Services, we follow a carefully designed plan to measure the progress of goals established together with our clients. By investigating opportunities we have an immediate impact on claims and costs. Our Professional Services lead you to practical, proven methods to understand, manage, and improve your risk management programs.

## Workers Compensation

Since 2006, we have saved over \$12MM in Work Comp premiums for our clients by reviewing open claims, proactively re-filing closed claims, and verifying your experience mod when released.

## Coverage other than Workers Compensation

When it comes to General Liability, Auto, EPLI, and other lines of coverage, our Executive Claims Team works with insurance carriers to find areas of opportunity and coverage on previously denied claims.
